IT LEADERSHIP WORKSHOPS AND SEMINARS

Enterprise Requirements Management • **IT Leadership** • Quality Assurance & Testing • Solution Architecture & Design • Application Development & Maintenance

Did you know that...

… the Top 5 IT management concerns are:

- IT and business alignment
- Building business skills in IT
- IT strategic planning
- Attracting IT professionals
- Making better use of information[1]

NueVista Group

provides a suite of expert consulting, support and staffing services designed to drive maximum value from technology systems, applications and strategies.

Our unique combination of background and experience— each member of our core team has more than 20 years of experience— assures our clients of exceptional value.

The challenge: *To deliver technology solutions effectively and efficiently, ensuring clarity in all phases*

For any technology project to be successful, it's critical to have a clear understanding of business requirements and desired outcomes from the start. At NueVista Group, we're committed to helping you realize project success and greater IT value. We enable clients to build and maintain systems that drive revenue and reduce costs by helping them overcome challenges in maximizing technology investments by meeting user expectations, reducing rework, and creating a standard project approach.

We help our clients get the most from their technology investments by enlisting several innovative approaches – one of which is through customized workshops and seminars that cover practical approaches to a variety of IT issues. Additionally, we then can provide coaching and mentoring on an ongoing basis. We enable organizations to realize incremental and sustainable improvements on a path to achieving the highest standards of operational excellence.

The benefits: *Productive requirement sessions, effective project delivery, customer satisfaction*

The NueVista team knows that the best way to realize greater IT value is to provide the proper mix of business and technology skills, and strong leadership. By working with us, your team will have repeatable quality processes that build confidence and enable success that is not dependent on a few individuals.

Collaborative and Interactive - We build on what works well in an organization and define ways to improve. Our interactive style makes for lively sessions that enable attendees to apply the topics discussed in their daily work.

Varied Duration - Sessions range from "Lunch and Learn" to delivery over a period of several days. Lunch and Learn sessions are typically delivered at little or no charge. All sessions are specific to the client's agenda.

Experience Counts - Our years of experience in a variety of industries and methodologies is combined with custom facilitated sessions that harness what your teams are doing well with continuous improvement insights from different approaches and techniques.

To start: *Join our customers who have already benefited from some of the following workshop topics:*

Requirements Management Best Practices
Quality Assurance and Testing Best Practices
Using Facilitation Effectively to Produce High Quality Requirements
Delivering an Effective AS IS / TO BE Effort
Understanding the Customer View of Requirements and Quality Assurance
Designing a Risk-Based Approach to Software Design, Development and Deployment
Maintaining Quality in an Agile Environment
Understanding Effective Approaches to Performance Testing

At NueVista Group, we're experts in the areas that challenge most organizations, beginning with effective Requirements Management. Let us know which issues from the above list you are facing or let us design a custom presentation on other issues impacting your organization.

Solve the problem by first identifying the challenge that affects you most. Build a repeatable framework which insures consistency that becomes your process.

The result: *A more capable organization that delivers technology with higher quality and satisfaction, in less time, and at a lower cost.*

The Quality Challenge

Goal for a solid quality organization
- **Strong relationship between Business and IT**
- **Few surprises downstream**
- **Predictable results**

Industry Benchmark

Where do you stand?

Unclear Requirements
- **Excessive Rework**
- **Dissatisfied End Users**
- **Rampant Cost Over Runs**

Organization in Chaos

Assess,

Enhance,

Improve.

Produce Incremental, Sustainable Results!
