

## What do you look for in a partner?

**Quality...** a partner whose results don't just pass muster, but exceed your expectations because they're better than you thought possible.

**Experience...** a partner whose business longevity is differentiated by a proven and distinguished track record.

**Integrity...** a partner whose motivating interest is your success and whose work brings you peace of mind.

### A Partner You Can Trust

Quality. Experience. Integrity. That's NueVista. We're proud of our reputation for innovative ideas with exceptional results, thanks to our 30-year heritage of IT services industry success and leadership. When you partner with NueVista, you work with an owner who understands your business and is focused on leveraging technology to maximize your opportunities for success.

## The Company

**NueVista Group** provides a suite of expert IT consulting, support and staffing services designed to drive maximum value from technology systems, applications and strategies. Our approach is fact-based, implementation-oriented and based on clear, mutually established goals.

Headquartered in Oak Brook, IL, NueVista Group was founded in 2002 by a team of senior technology services executives committed to providing the highest quality IT services to the world's leading companies.

Today our consultants and partners are hard at work helping businesses across many industries achieve greater results through the optimization of IT strategies, applications and systems. Blending the best of traditional business practices with contemporary management insights and an entrepreneurial spirit, NueVista's business model is a fresh, flexible, cost-effective alternative among today's mix of professional services firms.

Quality. Experience. Integrity.

## Core Services

With expertise spanning the entire technology lifecycle, NueVista Group focuses on three service areas: IT Leadership; Quality Assurance and Testing; and Application Development and Maintenance.

### IT Leadership

NueVista Group's IT Leadership services infuse organizations with the highest standards of operational excellence and business intelligence. Objectives include: managing technology-driven projects, minimizing IT risks, aligning technology and business needs, and improving communication among stakeholders.

#### Specific Services Include:

- Program Management/PMO
- Enterprise Requirements Management
- IT Performance Measurement/Scorecard
- ERP Readiness
- Business Continuity / Disaster Recovery Services
- Business Process Modeling/Workflow
- Change and Configuration Management

### Quality Assurance and Testing

NueVista Group has a proven track record of helping clients improve enterprise-wide quality processes and results. Our four-step approach to quality service delivery (assess, automate, implement and train) ensures that programs are carefully customized to client environments while incorporating the rigorous standards required to improve and accelerate application development, management and maintenance.

#### Specific Services Include:

- Quality Assessments
- Testing and Validation
- Risk Management
- QA/Test Labs
- Test Tool Automation

### Application Development and Maintenance

NueVista Group helps businesses enhance, manage and maintain their technology-enabled business assets through services for designing, developing, improving, expanding and consolidating applications.

#### Specific Services Include:

- Architecture and Design
- Development and Integration
- Wireless, Web and Traditional Application Expertise
- Maintenance Solutions
- Data Modeling
- Database Design
- Data Integrity

## Solution Delivery

Leveraging a range of delivery options, NueVista Group delivers vital technology expertise and leadership to clients. Through staff augmentation, we provide IT teams with proven, experienced consultants and specialists who have sought-after skills and certifications. NueVista Group also can take full ownership of and accountability for key IT projects, offering veteran project management expertise and off-site support solutions.
